

THE JOURNEY OF AN ASIAN SOUTHERN BELLE

# TOO MUCH ~~SEOUL~~ SOUL

## CINDY WILSON

Cindy Wilson wrote *Too Much Soul* to share her journey as an Asian Southern Belle and the many life lessons that she has learned and is still learning about love and acceptance of not only others but most importantly, herself.

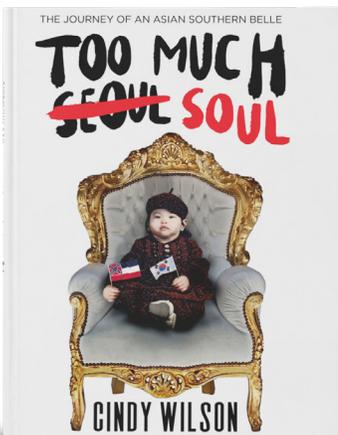

During Cindy's book writing process she did an interview on YouTube titled, "I am Asian, but my Culture is Black". The video was a snippet about her life being adopted in Seoul, Korea by an African American family and growing up in Jackson, MS. One weekend the video went viral and has over 400, 000 views. It was interesting for her to read the comments of individuals that her life connected with which confirmed the importance of releasing her book, *Too Much Soul*.

Along her journey she has discovered that as different as her circumstances may be her experience resonated with so many others that no longer want to be placed in society's box of what type of person we should be based solely on the color of our skin, gender, age, religion, etc.

Living in such a divisive time, race and culture are very complicated topics to discuss but her hope is that her book will start the conversation & lead to true freedom of being our most empowered, authentic selves!
